All Regional Directors

ECO - FRIENDLY PROJECTS

- Reference:
- The Commander of the Navy's letter No. SLN.21 dated 28th July 2015 (Copy available in SLCG Web)
 - Head of Steering Committee - Marine & Eco Friendly Projects letter No. PH.15 dated 08th December 2015 (Copy available in SLCG Web)
 - Deputy Director General Coast Guard Letter No. CG/OTH/20 dated 19th December 2015 (Copy available in SLCG Web)
 - Deputy Director General Coast Guard Letter No. CG/OTH/20 dated 28th August 2016 (Copy available in SLCG Web)

1. All Regional Directors are to conduct a refresher meeting involving all Officers & S/Sailors of the CG, based on above references as it has observed that the implementation of this nationally important scheme has become too routine with the passage of time. All above references are made available in the CG webpage that can be access by anyone. All CG personnel are to be reminded of the value of this programme and undertake them with much commitment and enthusiasm in the future.

2. Further, on analysing the last quarter returns it appears that all RD/CO/OIC are sending reports based on 'last-report' through effective 'cut & paste' scheme. For example, when you add figures of all tree re-plantation in the coastline, the coastline should be look 'very green' by now! These indicate the lackadaisical attitude of the managers of all levels, from undersigned to the Petty Officer. Therefore, following measures to be adopted henceforth in conducting, reporting and recording all Eco Friendly ventures as specified in above reference 'A'.

- All Events to be briefed, conducted & de-briefed on the necessity of doing this in which all personnel understand why they do it.
- All digital photographs taken to have correct date & time embedded.
- All reports to be submitted on actuals and with suggestion for improvement based on local conditions.

3. For future correspondence on Eco Friendly Projects this letter to be quoted hereafter.

YN JAYARATHNE, RWP& Bar, RSP, USP, ndu, psc, MDS, MHS
Commodore
Deputy Director General - SLCG
